

WHO WE ARE

Similar to other ride sharing apps, the WeBus app will pick up commuters that wish to arrive at the same destination, and split the cab fare between them. One of the things that make us unique in this field is our low pricing – that is similar to the average bus fare - while at the same time, maintaining a fast and easy commuting alternative – through a highly profitable business plan.

TODAY'S PROBLEM

Today most bus commuters have no better option than to take a taxi - if they wish to get there fast and comfortably.

Taxi sharing apps that exist today only cater the taxi riders, and don't consider the needs of the many bus commuters that are out there.

OUR TARGET AUDIENCE

Everyday bus commenters that wish to get there faster for a fair price.

OUR SOLUTION!

WeBus offers its users the opportunity to get there fast and save their money!

Thanks to a simple and clever payment plan, WeBus is able to charge more for the scheduled taxi ride, thus collecting high profits and sharing it with the cab driver!

It's a win-win situation!

The riders each pay less, the taxi driver gets more, and WeBus makes great profit!

THE BUSINESS POTENTIAL

In today's world, more than a third of the working population take a bus every day – In Israel alone we're looking at 2.2 million passengers a day!

According to a recently published survey – most bus commuters transport this way due to its low cost and a lack of a better alternative. Many of them said that they'd be willing to pay more if they had a better option.

From the taxi's point of view, the drivers are losing business and have much free time between their average of 10 rides per day.

WeBus will not only be able to give these drivers more work, but also promise them better pay - while collecting a potential income of 300 Million dollars a year – in Israel alone

OUR CURRENT STATUS

Successful pilot with hundreds of satisfied paying customers.

A promising **cooperation with Isrotel hotels and Taba Taxi** Station running 140 taxis together with the WeBus app around the clock

Recruiting more than **\$ 500 000**

We are currently the **soul operating Taxi-Sharing app** in the Israel.

You can download the app by pressing these links: **Google Play & App Store**
